## FOREWORD

The Central Office of the Zeta Psi Fraternity submits this, the fourth edition of the Pocket Directory, containing as nearly as is possible to obtain it, the name, chapter, class, address and occupation of every living Zeta Psi, and the date of the death of those who have passed beyond.

We feel confident that everyone appreciates the importance of the Directory, and certainly no medium can better aid the officers of the Fraternity in laying before its members their plans and ideas for the betterment of Zeta Psi. We hope that the publication of this little book will continue to bring about greater unity, because without receiving the benefit of added influence the fulfillment of our ideals will not be possible.

The future of the Central Office now seems assured and The Circle is adding new names to its roll of subscribers each month. This increase in support means of course a widening of the scope of activity and greater results in the efforts now being made to urge Zeta Psi undergraduates to higher and more useful endeavor. It is essential that each year shall mark another forward step in the progress of the Fraternity, and to make this possible the support of every member is necessary. Because we realize that this edition of the Pocket Directory is by no means perfect, we bespeak now assistance for future editions. Any brother who fails to send in a correction for this work when he finds an error neglects a fine opportunity to further this movement.

There is room here to make only the slightest acknowledgment to all those who have assisted in the work of compilation; many have been interested and have done their best to help us. We duly appreciate this and thank

them here, realizing that without their aid the Directory would have lacked much of its value.

The publication of this edition has been delayed chiefly because of our having changed the printing from the Middle West to New York City, but we feel that this delay will work for efficiency in future issues.

It is with the hope and belief that all our members will appreciate this work for what it is and that it will bring us all into closer cooperation in our efforts to raise still higher the standards of Zeta Psi, that we send this edition to press.

Faithfully in Tau Kappa Phi,

FRITZ H. NYMEYER.

CHESTER A. LYDECKER.
